PRINT: BOOK COVER, ARCHIVES INTERACTIVE GUIDE (PUBLICATION & WEB)

The 2023 Oregon Blue Book needed a cover and layout theme. The Military Records archives needed more.

VIDEOS: THEMED SERIES (WEB & SOCIAL)

There are 4 National Monuments in Oregon. I created a series of videos that offer a Park Ranger's point of view to those interested in visiting. All authored/edited in Adobe Premiere Pro + After Effects. VIDEO LINK

the counties and tribes when clicked. These interactive maps were required to work on all screen sizes, opening new web sections for each. (Illustrator)

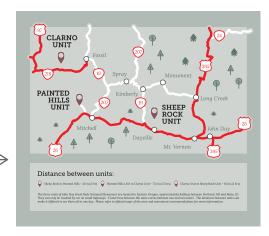

WEB: RE-DESIGN (UI/BANNERS/ICONS) I replaced image maps with icon-based text for 508-compliance. New banners too.

MAP: INFOGRAPHIC (PRINT & DIGITAL)

There was a need to show distance between the various locations in the John Day Fossil Beds Monument. I created this map based on a previous ArcGIS project, using Adobe FreehandMX and Illustrator 2023

BACKWALL DISPLAY

Oregon's National Monuments are centered with the theme image and header text. Big and bright to catch the eye along with location pins.

OREGON STATE FAIR EXHIBIT: Secretary of State / Archives (Summer 2023)

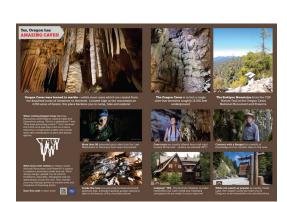

The State of Oregon hosts a display area at the annual Oregon State Fair. My task was to bring what I'd developed for web, print and video into a walk-through exhibit. A set of two H-grid walls pull visitors to take a look.

EXHIBIT PANELS:

Photos, graphics, QR codes and maps elevate the text on the series of interpretive panels. ~~ V ~>
